

## Annual & Biennial Mix

Giving maximum colour & benefit to wildlife, this mix produces a concentration of flowers over two years with cornfield annuals in the first year & taller biennials flowering in the second year. Many of the plants in this mix have beautiful seed-heads that will produce wonderful structures during the winter.

This mix includes foxglove which is poisonous if eaten. Please let us know if you would prefer us to supply the mix without foxglove.

<b>Wildflowers:</b>		<b>%</b>
