

## Highland Grassland Mix

This mix recreates a moorland grass community found on well-drained highland sites with acidic soils. On upland sites this does not need to be cut, although it can be lightly grazed in autumn. This mix is based on the calcifugous British Plant Communities U2 & U4. There are 17 wildflower & 9 grass & rush species in this mix.

Species	Common name	Origin	%
<b>20 % wildflowers</b>			
<i>Achillea millefolium</i>	Yarrow	Fife	2.5
<i>Alchemilla alpina</i>	Alpine Ladys Mantle	Angus	1
<i>Calluna vulgaris</i>	Heather	Angus	2
